I understand that the service installation charge will include labor, materials, and costs associated with the installation. Meters and materials are, and remain, the property of the Mt. View-Edgewood Water Company. I agree to keep meters, backflow assemblies, and valves accessible at all times with no trees or shrubs within a two-foot radius. I further agree to not place a fence or any barrier between the meter, backflow assembly, and road. I grant access to the water company onto the service address property to install (if one is not present) and test annually a backflow assembly on my water service line. I understand that it is my responsibility to have an expansion tank and properly functioning T&P Valve (Temperature & Pressure Valve) in place on all hot water heaters. If I have any doubt, I will contact a licensed plumber. (Expansion tanks are now used in all new construction, and are required by Section 608.3 of the Uniform Plumbing Code). I understand that failure to install the expansion tank(s) may result in leaks or plumbing bursts, water damage, or injury. I understand that this membership is tied to the below service address, and as such must be transferred to the new owner(s) along with the property. I understand that failure to comply with Water Company requirements may result in water service termination.

**\* Important Notice: Bi-Monthly charges (Water Base, Water Usage, and Fire Protection) shall start on the next billing cycle after the meter is installed.**
